Sierra Nevada February 2017

Our skiers returned from Sierra Nevada safe and sound after a fabulous ski trip.

Fifty-nine students skied in idyllic conditions – sun, blue sky and lots of snow.

At the tip of the resort we were able to see The Mediterranean and also Morocco in the distance.

The students all got on extremely well in lessons and all progressed up the mountains to more challenging slopes.

We ended the trip with an overnight stay in Granada and walking tour. Our guides walked us all around the 'old town' and Arab quarter, the history of Granada was fascinating and very informative.

It is worth mentioning that all our students returned safe and well — no injuries!
