

Task 2- create a book for 3-5 year olds

The task was to create a story book for 3-5 year olds, with a script, characters and images.

Team Titanium created a book title, 'First day at primary school'. Eve worked on the script, making it rhyme and having a great moral behind it. The story showed how you shouldn't be afraid of beginning primary school, which was relevant for this category. Jessica and Niamh produced excellent images that fitted with the characters. Jessica was the project manager.

Team Innovative (Luc, Ciara and Megan) produced a book, 'Bobby the burger'. The moral of the story was friendship and on Bobby's journey he met many friends, such as Chazzy the Chicken and Sammy the Salad. It was an excellent idea with very creative drawings. Megan was the project manager.

The losing team were Team Innovative, based purely on the fact that the book wasn't finished and the presentation could have been a little better.

The 3 team members will now face Mr Mullan's board room, where at least 1 student will be fired!!!
